Section 1 – Account and general provisions

Access to and use of the Platform and your Account

If you open and use an Account, you are responsible for maintaining the confidentiality of your Account and related password, as well as for restricting access to the device(s) through which you access your Account (for example, your computer) to prevent unauthorised access to your Account. You agree to accept full responsibility and are liable for all activities that occur under your Account or related password. You should take all necessary steps to ensure that your Account related password is kept confidential and secure. You should also inform us immediately if you have any reason to believe that your password has become known to anyone else, or if the password is being, or is likely to be, used in an unauthorised manner.

You can always reset your password by going on the “Sign In” screen and clicking on the Reset password link. This link is only visible after you have made a first attempt to log in. You will then be asked to fill in the email address of your Account, after which you will receive an email with instructions to reset your password and a link you need to click on. Clicking on this link will take you to a page where you need to choose and confirm your new password and then to click on “Change password” to confirm the changes. The email with the instructions to reset your password can also be triggered by a call centre or by a customer support member through the “Administrative Portal”.

Please ensure that the details you provide us with are correct, up-to-date, and complete. Please also inform us immediately of any changes to the information you provided us with when opening your Account or afterwards. You can access and update much of the information you provided to us in the **Profile** area (icon of a person in the bottom navigation) of the Platform.

Subaru reserves the right, always and at its discretion:

- to refuse you access to the Platform;
- to deny you the opening of an Account, and;
- to terminate or remove your Account.

If your SUBARU Care account related information indicates that you have not been active on your SUBARU Care account for a period of 6 months or you have not fully activated your SUBARU Care account, then SE shall notify you that it shall delete your SUBARU Care account (including any Personal Data that is processed when accessing and/or using the SUBARU Care app) 14 calendar days before closing your SUBARU Care account.

If your SUBARU Care account related information indicates that you own one or more Subaru vehicles and that you have not logged in on your SUBARU Care account for 5 years, we will consider that you do not wish to keep your SUBARU Care account and no longer wish to rely on certain of its features that are linked to the ownership and use of your vehicle(s) (for example, the link between the use of a connectivity device in your car and your SUBARU Care account). We will then close your SUBARU Care account and delete your Personal Data related to your SUBARU Care account.

14 calendar days before effectively closing your SUBARU Care account and deleting your Personal Data, we will send you an e-mail so that you can confirm whether or not you want to keep your SUBARU Care account.

The above applies equally if your SUBARU Care account related information does not indicate that you do not own a Subaru vehicle and you have not logged in on your SUBARU Care account for 2 years.

Availability

We will try to ensure an uninterrupted availability of the Platform and to your Account and error-free transmissions. However, due to the nature of the Internet, an uninterrupted and error-free access cannot be always guaranteed. You cannot claim any damages from SE in the event of interruption of the availability of the SUBARU Care app or your SUBARU Care account, except in the event of our or our appointees’ intentional fault or gross negligence, or in the event of non-performance of our essential obligations under these Terms of Use.

Also, Subaru may occasionally suspend or restrict your access to the Platform and/or your Account in any case of emergency, for technical reasons (repair, maintenance, improvement etc.), for security related reasons and/or for the introduction of changes (new facilities, Services, apps, etc.), without incurring any liability. We will attempt to limit the frequency and duration of any such suspension or restriction.

Subaru may also block or prevent access to your Account in case of a (suspected) breach of confidentiality/security of your Account or a misuse thereof.

You are responsible for the choice of your own devices used to access the Platform and your Account, as well as the products, Services, or apps via the Platform, including the compatibility of such devices in terms of software and technological fitness to receive the Services and to access and use the SUBARU Care app and your SUBARU Care account. You are also responsible for keeping your devices up to date, including, but not limited to, by installing any updates or new releases when these are made available by Subaru.

- Software updates of the Connectivity Device will take place automatically, via OTA, or via the dealer. If the software update is taking place automatically, you hereby undertake to accept such updates and not to prevent or hinder them in any way. Furthermore, you undertake to submit your Connectivity Device to periodical maintenance check-ups, as recommended from time to time by Subaru. Subaru may replace the Connectivity Device at any time for security reasons, to update the offering of Services or for any other reason based on applicable laws and regulations.

You are not entitled to receive any compensation or reimbursement from us if one or more of the Services are not functioning or only partly functioning because you activated the privacy mode.

It is only possible to use one account at a time with Services. The Services will be terminated when the buyer of a second-hand car activates the Services (via scanning the QR code) for a car with the same VIN. The previous entitled end-user will receive an e-mail notification informing him or her about losing the access to the Services.

If, in addition to the Connected Services, you have also subscribed to the Remote Services, these will be automatically terminated with the termination of the Connected Services.

Do you have to pay for the Services?

We will not charge you for using our services for a period of time depending on the services. This period starts from the moment the subscription is started.

- The free period for the Remote Services is 3 years.
- The free period for the Connected Services is 7 years.
- The free period for the Connected Multimedia Services is minimum 3 years (e-care 7 years).

If, at any time, we would change our policy and that we would charge the users for their use of the Services, you will be notified of such change beforehand and you will then be able to cancel your subscription if you do not wish to continue using the Services on a paid-for basis.

For how long are the Services available?

The Services will be available in your vehicle after activation and for the period depending on the service (see above), unless terminated earlier by us in accordance with these Terms of Use and without prejudice to our right to modify the Services in accordance with the Terms of Use. Please note that if you become the second-hand owner of your vehicle, the Services will be available to you for the remaining period. Please contact your dealer should you wish to know how much time you have left to enjoy the use of the Services.

Termination by you of the Services

You may terminate the Services for your convenience at any time, without notice and without having to pay any compensation to us by terminating the Services in the way described in Section 2, clause 4. Please note that you cannot terminate any service individually or separately.

If you terminate the Services for convenience, we will stop all the Services within two (2) business days at the latest.

If you terminate the Services, the Remote Services will automatically be terminated as well.

Modifications of the Services

We reserve the right, at any time, to discontinue or remove one or more of the Services, to modify their availability, functionalities, features, scope and/or specifications, to replace them by different or equivalent Services or to add any different or new service, temporarily or permanently (for example, for maintenance, upgrade, improvement, etc.) without any prior notice.

We may inform you of any such change by e-mail and/or via the App. You will not be entitled to any compensation (monetary or other) with respect to any such change.

If any such change is substantial, we will notify it to you through the App or by email. You will be deemed to have accepted such change if, within thirty (30) calendar days from the date of the notification, you have not terminated the Services in accordance with these Terms of Use.

Optionally, you can agree with that person that you will temporarily activate the “privacy mode” on your Vehicle, disabling traceability of your car until the “privacy mode” is deactivated. You then bear the responsibility of honouring that agreement for the duration of the lend-out period.

If the person you are lending your Vehicle to chooses to use the Services through his or her Account, your subscription will be cancelled as described above. To re-subscribe to the Services, you will have to follow the same procedure as the one described in this clause.

Please note that in any event you are liable for safeguarding the privacy of the persons using your Vehicle.
